First of all, we have accepted the invitation to be involved in the COVID-19 Global Pandemic Project Group, and we look forward to sharing experiences and good practices with other SAIs in this area. At a national level, we have been involved, on a real-time basis, in some of the COVID-19 related procurement procedures, through our participation, as observers, in the relevant tender boards, and we have been monitoring the state aid measures announced by the government. We plan to continue our audit in the area, by performing audits on the award procedures and on the execution on COVID-19 related contracts, as well as by auditing the state aid measures applied.
